CLASSIFICATION

Approved For Release 2005/08/03: CIA-RDP80-00810A001800260004-0 25X1 SECRET - 2 -25X1 26 March 11 170 tons Chemnitz 25X1 These shipments were reported previously. 25X1 25X1 These shipments consisted of Soviet ammunition. Prior to 25X1 September 1952. only German ammunition was stored at Mockrehna. 25X1 25X1 Comment. The amount of ammunition issued by the Toepchin ammunition depot was remarkably small. From the fact that units at troop training grounds are supplied with ammunition directly from the USSR it is inferred that the Soviet intend to keep the stocks available at ammunition dumps 3.[25X1 in East Germany at their present level. From 15,000 to 20,000 metric tons

25X1

SECRET

of ammunition are believed to be stored at Toepchin.
